Data Limitations:

Data published in this report were extracted from a live database; thus, it is possible that figures reported in tables and charts do not balance to totals reported in other reports published by the Department of Corrections. Select distributions consist of estimates and are susceptible to rounding error and missing data which could have caused these distributions not to add up to exactly 100%. Current fiscal year data for the NDOC or for other agencies are not always available at time of edition; consequently, the NDOC performed its best effort to align data accordingly to derived estimates.

^a Beginning March 2007, minimum custody is comprised of community assignment and minimum custodies, and close custody comprises unassigned, close, and maximum custodies.
The former method excluded inmates that had not been assigned to a custody on the query run date.

b The in-house populations by gender don't balance to the actual in-house populations reported in Report 1.1 dated as the last day of the month given that SKI, SKC, and SKF inmates are excluded from the distribution.
